PRP MASTER - Jul 12 Tracked Draft.docx

Attached is the clean PRP version that we sent internally for review. I've attached a tracked version as well but I wouldn't rely on that one since this file was produced using Word's merge & compare feature which screws up things like figures (pretty much every figure was messed up) and text where EPA may have edited and then Mike edited on top of that (saw at least one of those issues)... I tried to scan through it to fix these issues but likely didn't catch everything.

Chris,

As discussed, attached is a draft public-friendly version of the program/agenda for the Great Lakes public forum. Mike would like something like this up on binational.net as soon as we can manage it. He'll be sending this to Cam via email soon (you'll be copied I think). In parallel we're sending the file over to ECCC production services so that they can give us a better designed product, so your focus on the text would be ideal.

Also, by way of this email, I'm asking Ash to send over the Mike-version of the PROP that we've distributed internally, along with a track changes version that clearly shows the differences between the last GLEC Secretariat version, and the Mike version.

Cheers,  
 Carla
